Catalog Design - 605.347.0402

Herd Health: We pasture weaned the bulls September 10th. The bulls were transitioned over to a mixed ration of silage, ground hay, earlage and protein supplement where we targeted a 3.25 lb/day gain. The bulls were slowly stepped up to a 44 mg cal. ration which consisted of 16 lbs. earlage, 1lb. protein supplement and 20 lbs. ground hay and sorghum silage. We like to keep the bulls on a high roughage diet and grow them out to ensure sound feet, legs and longevity of the bulls.

Terms: The terms of the sale are cash or check payable at the sale facility unless satisfactory credit arrangements have been made prior to the sale. The right of property shall not pass until after settlement is made. All settlements must be made with the clerks of the sale before any cattle will be released. Bids: Every animal is to be sold and will be sold. No by-bidding is permitted. The highest bidder is the buyer. Disputes: In case of disputes, bidding will be reopened between the parties involved. If no further bid is made, the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters is final. Announcements: Errors discovered in the catalog will be corrected by announcements from the auction stand at sale time and will take precedence over the printed material in the catalog. Accidents & Liabilities: All persons attend the sale at their own risk and the seller and sales management assume no liability, legal or otherwise, for any accidents occurring in, on, or about the premises. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

Welcome to the 1st annual Millar Angus Bull Sale

Whether you're one of our repeat customers, neighbors and friends or if you're considering Millar Angus genetics for the first time, we thank you. We invite you to be our guest on February 19th.

When it comes to the family, well...it's never a dull moment around the Millar household! Kids and cows always seem to keep us busy. Ryle (13) enjoys being ranch kid and is great help. He loves roping and caring for his sheep and cattle. Kobi (10) is into gymnastics, basketball, baking, crafts and enjoyed learning to breakaway rope this past summer. We both find a little time to do some team roping now and then with the family, throw in a little auctioneering for Jon and that sums up what keeps us busy in our "free time." While we often find ourselves on the go, we wouldn't trade these precious days for anything.

Looking toward the ranch side of things...2019 proved to be a good year. It was great getting some much needed moisture to replenish our hay yard and pastures. When it comes to the cattle industry there's never a bad time to step up the quality of genetics in a herd because quality typically sells. We are proud to have seen many of our customers experience increased weaning weights off the cow and substantial gains in the feedlot. The goal for our operation has always been to produce cattle that will help your herd be as economical and profitable as possible.

All of our bulls have been raised with the rancher in mind: natural growth bred in, not fed on. If you're needing a bull to cover a little more country one of our two-year-olds should fit the bill. They are younger bulls from our 2018 calf crop and have never before been offered for sale. All the bulls have been bred to add performance, length, thickness, carcass qualities and maternal strengths to your herd.

As always, we will keep the bulls until April and deliver them, free of charge. The bulls will be semen tested in March with scrotal measurements available sale day. All bulls sell FULLY GUARANTEED for the first breeding season with your satisfaction being our #1 priority. We invite you to stop by to view the bulls and the cowherd that produced them. We always love to talk cattle!
