— Around the Ranch —

First of the year means things are gonna get movin' and shakin' here at Millar Angus. Our first calf hit the ground New Years Day and it's been full-steam ahead ever since. The bulls are lookin' good and will be ready for their big debut!

When it comes to the day-to-day happenings of the household...always busy, but wouldn't want it any other way. Ryle had a successful fall lambing season and loves helping around the ranch every chance he gets. He reminds us often he could help more if school would quit getting in the way. Kobi, the slime making queen, keeps me hoping with basketball and tumbling. Her latest news...she got a guinea pig named Willow (or guinea hog as some like to call it). Sheep and guinea pigs...who knew Jonny Boy and I would be such softies when we had kids! Me...well, I kind of hibernate to my office this time of year to work on all the behind the scenes bull sale stuff.

We wish everyone a happy 2020!
Stop by if you're in the area...we always love to visit!

Focusing on the Customer: Bolduan Family Caledonia, MN

"Jon and Breezy stand behind what they sell and it is an honor to work with them and their genetics."

-Mike & Cindy Bolduan

A little bit about the Bolduan Farm: The Bolduan family farm is located in the southeast corner of Minnesota. We run about 70 commercial cow/calf pairs which are mainly Angus oriented and finish around 250 steers and heifers each year. We also grow our hay and corn for our livestock.

Millar Angus genetics on the Bolduan Farm: We have had Millar bull genetics in our herd for the past 10 years, and we are very pleased with their offspring. The Millar bulls are docile and very easy to work with. The bulls sire calves that are easy doing in the feedlots and grade well. They

also sire great cows with good maternal performance. We love the longevity of these cows for we still have some in our herd from the first bull we bought from the Millar's. Jon and Breezy stand behind what they sell and it is an honor to work with them and their genetics.
