

MILLAR

Angus

Wednesday **2:00pm**
February 19th 2025
At the Ranch | Sturgis, SD

Welcome to the 24th annual Millar Angus Bull Sale! Whether you're considering Millar Angus genetics for the first time or are a repeat customer, neighbor or friend...we thank you!

When it comes to the family, it's never a dull moment around our outfit! Ryle (18) recently finished up his senior year of high school and to say he's excited would be an understatement. He knows the herd as good as anyone and often finds himself showing visitors around the ranch talking cattle. Kobi (15) is great help as well, enjoys playing volleyball and chooses rodeo as her favorite sport. When it comes to us...chasing cows and kids pretty much sums up our "free time" but wouldn't trade these days for anything!

Looking toward the ranch side of things, 2024 proved to be a "character building" year when it comes to not having much moisture. We were however, grateful of the stronger cattle market. We all know each year holds it's set of challenges in this industry, so we always try to focus on what we can control. With that being said...quality typically sells. It excites us when we visit past customers who have seen an increase in weaning weights off the cow and in the feedlot. Expenses never seem to go down, so our goal is to produce cattle that will help your herd be as economical and profitable as possible.

All of our bulls have been raised with the rancher in mind: natural growth bred in, not fed on. If you're needing a bull to cover a little more country one of our two-year-olds should fit the bill. They're from our 2023 calf crop and have never before been offered for sale. All the bulls have been bred to add performance, length, thickness, carcass qualities and maternal strengths to your herd.

As always, we will keep the bulls until April and deliver them, free of charge. The bulls will be semen tested in March with scrotal measurements available sale day. All bulls sell FULLY GUARANTEED for the first breeding season with your satisfaction being our #1 priority. We invite you to stop by to view the bulls and the cowherd that produced them. We always love to talk cattle!

Jon, Brezzy, Ryle & Kobi

Herd Health:

We pasture weaned the bulls on August 23rd. The bulls were transitioned over to a mixed ration of sorghum silage, ground hay, earlage and protein supplement where we targeted a 3 lb/day gain. We like to keep the bulls on a high roughage diet and grow them out to ensure sound feet, legs and longevity of the bulls.

WE PUT A *Strong Emphasis* ON THE MAMA COW

We may be in the bull business, but we know it starts with the mama cow...you've got to have a good factory! For a cow to stay in our herd she must be efficient and functional, raising a big calf with consistent breed back year after year.

Here is a look at the 53 cows that are working in our herd today that have earned Pathfinder status.

The **PATHFINDER ANGUS PROGRAM** was started in 1978 in an effort to identify superior cows in the breed based on their records of performance from Angus Herd Improvement Records (AHIR). In identifying these superior cows, emphasis was placed on early puberty, breeding and early calving, followed by regularity of calving and above-average performance of the offspring.

The Pathfinder Report requires a minimum of three calves from a cow to determine her regularity of calving and ability to produce superior calves for weaning weight. In addition, an important part of the report is the list of bulls that have sired five or more qualifying females.

The Angus Pathfinder Report identifies cows that have excelled in production based on AHIR records of performance. To qualify for the report, a cow must have produced a calf measured through AHIR in the past 18 months. Pathfinder status is designated by a # symbol.

- Pathfinder dams weaning production record of 8 at 102.
- Extra length of body in this good doing Boone son...he'll cover the cows!

It Takes a Team!

Where do we begin...a simple THANK YOU does not come close to letting you know how much we appreciate each of you! Your dedication, time, energy and hard work you put into Millar Angus does not go unnoticed. We are so fortunate to work alongside you!

Cole Stoner

Cole has been our right hand man for nearly 6 years. From feeding, farming and fencing to cattle work and repairs... he can handle it all! We appreciate your dedication Cole!

Jade Boyles

Jade's got his first year under his belt at Millar Angus and is fitting in great! There hasn't been a job he won't tackle. We love watching his cowherd and knowledge of the industry grow.

Greg Wetz

Greg may technically be retired, but he always pulls through for us at a drop of a hat! We enjoy having him around the days we need an extra hand around the ranch.

John Kirby

Around this outfit, we call him "Little John". He hadn't calved out many cows when he started, but this marks the 10th year he's served as our "night calving specialist".
